SUMMARY

Recent Computer Science graduate with over a year of hands-on experience in building applications for Mobile & web.Very passionate about mathematics and problem-solving. Possess experience with 4+ programming languages, particularly skilled in C++ and Java. Seeking an entry-level position to begin my career in a high-level professional environment.

EDUCATION

University of Rajshahi (*January 2017 - April 2022***)**

B.Sc. (Engg.) in Computer Science and Engineering

CGPA: 3.07 (out of 4.0)

SKILLS

Language: C, C++, Java and Javascript

Framework/IDE: Android-studio, Bootstrap

Others: Git, Illustrator, Adobe XD, Linux OS, MySQL

Communication Language: Bengali, English(Good communication ability), and Hindi

PROJECTS

Artificial Intelligence Base Bangla Keyboard

Final Year Project (collaboration work)

We aim to make a Bangla keyboard that can predict the next word based on previously input words, correct misspelled words, and complete a sentence. My Responsibility was to make a mobile application with the ML model.
Project Link: (AI_keyboard) (Mobile APK)

Design and Develop a website for Phytochemical Database

Collaboration Research Work

An extensive phytochemical database dedicated to Computer-Aided Drug Designing, Lead Optimization, Virtual Screening, and Molecular Docking.

Project Link: (Website Link) (Github Source Code)

Blood Finder Mobile Application

To improve Blood Donation Complexity, an area-based map is introduced with a real-time marker. Use firebase for a real-time database solution.
